developing strategies for the modern international airport identifies and analyses the primary issues facing the modern international airport and their role in a global economy based on the premise that the aviation industry has a primary and decisive role in the economic and social development of the modern international economy this book examines the modern international airport and its process of integration into the larger global economy as the integration of the aviation industry within the larger context of international business grows there are an increasing number of important airport sites world wide which are exhibiting the characteristics of what has been called by one authority an aerotropolis where major airports are integrated into the wider multi business dynamics of cities such as shanghai or beijing such pioneering developments are indicative of this region and bring with them a host of new issues and challenges for economic development while international projections of the growth in demand for aviation services suggest that the key region for future expansion will be the asean group of countries there are marked differences between countries in their overall plans for viable economic development as a result the essential raising of funding required for international airport development must compete against other potential development projects all trying to attract the attention of national policy makers

the european union and humanitarian crises patterns of intervention addresses the allocation of foreign aid within the framework of the european union s humanitarian aid policy and analyses different member states intervention strategies designed to cope with these emergencies joining the debate about bilateral and multilateral allocation of foreign aid in crisis situations and exploring the cooperative actions undertaken by the european union and its member states to cope with them the book questions how the context of the crises themselves impacts on strategies of intervention and investigates how strategies change depending on the characteristics of the crisis

staging the absolute argues that an array of practices and beliefs came together to define an essential aspect of russian and soviet culture in the twentieth century the persistent desire to interrupt or disrupt history drawing on sources that define the nature of public rituals the book reveals the pervasive presence of the impulse to impede history in russia s modern era and the realization of the idea in the form of the stalinist show trials of the 1930s thomas seifrid analyses soviet festivals public displays of agitational propaganda and urban planning together with such modernist precursors as fin de siècle and early twentieth century projects for reviving the theatre modernist adaptations of puppet theatre the

faust legend and its vogue in early twentieth century russia and the nineteenth century panorama the book reveals that what binds these otherwise disparate phenomena together is a shared impatience with history and a corresponding desire to appropriate urban space illuminating the deeper meanings in these revived archaic forms staging the absolute shows how pervasive the interest in disrupting history was in the russian modern era
