Carl F. H. Henry was one of the most influential and formative evangelical voices of the twentieth century. His life and work continue to shape how evangelicals understand themselves, the gospel, and the world around them, offering wise guidance for remaining faithful to God's word in the midst of a faithless world. In *Essential Evangelicalism*, some of today's prominent voices offer fresh and timely assessments of Henry's life and legacy, contending that his work is as relevant as ever for a new generation of evangelical Christians. These essays offer world-class scholarship and fresh perspectives on one of the most important Christian leaders of recent memory.

Fishing for Souls explores the origins and development of fishermen's missions in Britain, focussing particularly on the nineteenth and early twentieth centuries. This book is the first to view the entire picture of a significant, although not broadly known, part of British history and to add new relevant perspectives. Dr. Stephen Friend FRSA establishes an historical outline of the development of the Church's work among

british fishing communities and explores why a mission specifically concerned with fishermen was not initiated until the industry entered a period of economic decline during the early 1880s the factors relating to the development of british fisherman s missions are complex involving not only social and technological changes inside and outside the fishing industry but also changing theological perceptions that had a significant impact on attitudes to social conditions with its honesty and objectivity about developments especially those that were difficult and painful for the fishermen s mission societies at the time fishing for souls reveals the magnificent work that the various societies did and in some cases continue to do making it evident to all the readers
